
The December 2015 amendments to FRCP 37(e) were designed to bring consistency to when courts find the loss of ESI sanctionable. Has the amendment's intent to address the "serious problems resulting from the continued exponential growth in the volume of ESI" borne out? Join our distinguished panelists for a discussion of recent cases and recommended practices.

About the Seventh Circuit Pilot Program

The Seventh Circuit Pilot Program on Electronic Discovery was formed to develop, implement, evaluate, and improve pretrial litigation procedures that would provide fairness and justice to all parties while seeking to reduce the cost and burden of electronic discovery consistent with Rule 1 of the Federal Rules of Civil Procedure. The Pilot Program has provided extensive education to thousands of attorneys in the Seventh Circuit and beyond. This CLE session is sponsored by the Pilot Program.

The CLE has been approved for one hour of CLE credit in Illinois, and credit in Indiana is pending. Only the first 1250 registrants can be accommodated.

Please contact Kelly Warner, Co-Chair of the Education Sub-committee of the Pilot Program, at kwarner@rshc-law.com with any questions.
